

Red Hat CTO Brian Stevens to Speak at GigaOm Structure

JUN 16, 2014

Presentation will address enterprise OpenStack adoption and building public and private clouds

RALEIGH, N.C.--(BUSINESS WIRE)-- Red Hat, Inc. (NYSE: RHT), the world's leading provider of open source solutions, today announced that its executive vice president and CTO, Brian Stevens, is scheduled to speak at GigaOm Structure on the impact of OpenStack on the enterprise.

GigaOm Structure 2014 will focus on the evolving role of infrastructure as enterprises continue to turn to cloud-based resources. Some of the topics to be discussed at Structure 2014 include: what the infrastructure powering tomorrow's killer applications will look like; the use of cloud technologies to design, build, and ship physical products; the true value of instant access to computer and storage for enterprises; whether or not the terms public, private and hybrid cloud create a distinction without a difference; and discuss if vendors that powered the PC and client-server revolutions can maintain their edge in the cloud computing era.

WHAT: Red Hat executive vice president and CTO Brian Stevens to speak

WHERE: Mission Bay Conference Center, 1675 Owens Street San Francisco, Calif., 94158

WHEN: Thursday, June 19, 12:05 p.m. PT

Forward-Looking Statements

Certain statements contained in this press release may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any historical or current fact. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including: risks related to delays or reductions in information technology spending; the effects of industry consolidation; the ability of the Company to compete effectively; the integration of acquisitions and the ability to market successfully acquired technologies and products; uncertainty and adverse results in litigation and related settlements; the inability to adequately protect Company intellectual property and the potential for infringement or breach of license claims of or relating to third party intellectual property; the ability to deliver and stimulate demand for new products and technological innovations on a timely basis; risks related to data and information security vulnerabilities; ineffective management of, and control over, the Company's growth and international operations; fluctuations in exchange rates; and changes in and a dependence on key personnel, as well as other factors contained in our most recent Annual Report on Form 10-K (copies of which may be accessed through the Securities and Exchange Commission's website at <http://www.sec.gov>), including those found therein under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations". In addition to these factors, actual future performance, outcomes, and results may differ materially because of more general factors including (without limitation) general industry and market conditions and growth rates, economic and political conditions, governmental and public policy changes and the impact of natural disasters such as earthquakes and floods. The forward-looking statements included in this press release represent the Company's views as of the date of this press release and these views could change. However, while the Company may elect to update these forward-looking statements at some point in the future, the Company specifically disclaims any obligation to do so. These forward-looking statements should not be relied upon as representing the Company's views as of any date subsequent to the date of this press release.
