

Red Hat Summit 2018 Dates Announced

MAY 04, 2017

The industry's premier open source technology event heads back to San Francisco for 2018

BOSTON--(BUSINESS WIRE)-- Red Hat, Inc. (NYSE:RHT), the world's leading provider of open source solutions, today announced that the 14th annual Red Hat Summit will take place at the Moscone Center in San Francisco, May 8 - 10, 2018. Every year, Red Hat Summit brings together thousands of industry leaders, open source contributors, and Red Hat customers and partners, for a high-energy week of innovation, education, and collaboration focused on the future of enterprise technology.

As the industry's premier open source technology conference, Red Hat Summit includes visionary keynotes, hundreds of sessions, training, and more exploring how open source is enabling major innovations in areas like cloud computing, containers, application development, DevOps, big data, mobile, security, and more. A replay of this year's general sessions and more can be found at <http://siliconangle.tv/red-hat-summit-2017/>.

The call for papers for Red Hat Summit 2018 will open later this year, with registration opening early 2018.

Forward-Looking Statements

Certain statements contained in this press release may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any historical or current fact. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including: risks related to the ability of the Company to compete effectively; the ability to deliver and stimulate demand for new products and technological innovations on a timely basis; delays or reductions in information technology spending; the integration of acquisitions and the ability to market successfully acquired technologies and products; the effects of industry consolidation; uncertainty and adverse results in litigation and related settlements; the inability to adequately protect Company intellectual property and the potential for infringement or breach of license claims of or relating to third party intellectual property; risks related to data and information security vulnerabilities; ineffective management of, and control over, the Company's growth and international operations; fluctuations in exchange rates; and changes in and a dependence on key personnel, as well as other factors contained in our most recent Annual Report on Form 10-K (copies of which may be accessed through the Securities and Exchange Commission's website at <http://www.sec.gov>), including those found therein under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations". In addition to these factors, actual future performance, outcomes, and results may differ materially because of more general factors including (without limitation) general industry and market conditions and growth rates, economic and political conditions, governmental and public policy changes and the impact of natural disasters such as earthquakes and floods. The forward-looking statements included in this press release represent the Company's views as of the date of this press release and these views could change. However, while the Company may elect to update these forward-looking statements at some point in the future, the Company specifically disclaims any obligation to do so. These forward-looking statements should not be relied upon as representing the Company's views as of any date subsequent to the date of this press release.
