

# Red Hat CIO Lee Congdon to Keynote at All Things Open Conference

OCT 16, 2013

*Raleigh conference to focus on open source in the enterprise*

RALEIGH, N.C.--(BUSINESS WIRE)-- Red Hat, Inc. (NYSE: RHT), the world's leading provider of open source solutions, today announced that Red Hat CIO, Lee Congdon, will be delivering a keynote address on Wednesday, Oct. 23, 2013, at the All Things Open conference in Raleigh, N.C. Presented by IT-oLogy, the two day event is set to bring together top developers, technologists and decision makers from around the world to explore open source and the open web in the enterprise. Congdon will discuss the value of open for a variety of stakeholders, and how open source is driving the technology trends that are pushing business innovation and changing the role of IT.

At Red Hat, Congdon is responsible for the company's global information systems, including the technology strategy, enterprise architecture, information technology governance, solutions delivery, and systems operations supporting the company. His role includes enabling Red Hat's business through services, such as knowledge management, technology innovation, technology-enabled collaboration, and process improvement.

## Forward-Looking Statements

Certain statements contained in this press release may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any historical or current fact. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including: risks related to delays or reductions in information technology spending; the effects of industry consolidation; the ability of the Company to compete effectively; the integration of acquisitions and the ability to market successfully acquired technologies and products; uncertainty and adverse results in litigation and related settlements; the inability to adequately protect Company intellectual property and the potential for infringement or breach of license claims of or relating to third party intellectual property; the ability to deliver and stimulate demand for new products and technological innovations on a timely basis; risks related to data and information security vulnerabilities; ineffective management of, and control over, the Company's growth and international operations; fluctuations in exchange rates; and changes in and a dependence on key personnel, as well as other factors contained in our most recent Quarterly Report on Form 10-Q (copies of which may be accessed through the Securities and Exchange Commission's website at [www.sec.gov](http://www.sec.gov)), including those found therein under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations." In addition to these factors, actual future performance, outcomes, and results may differ materially because of more general factors including (without limitation) general industry and market conditions and growth rates, economic and political conditions, governmental and public policy changes and the impact of natural disasters such as earthquakes and floods. The forward-looking statements included in this press release represent the Company's views as of the date of this press release and these views could change. However, while the Company may elect to update these forward-looking statements at some point in the future, the Company specifically disclaims any obligation to

do so. These forward-looking statements should not be relied upon as representing the Company's views as of any date subsequent to the date of this press release.
