

# Red Hat Named a Leader in Gartner's 2016 Magic Quadrant for Full Life Cycle API Management

NOV 09, 2016

*Evaluation based on completeness of vision and ability to execute*

RALEIGH, N.C.--(BUSINESS WIRE)-- Red Hat, Inc. (NYSE: RHT), the world's leading provider of open source solutions, today announced that Gartner, Inc. has positioned Red Hat in the "Leaders" quadrant of Gartner's October 2016 Magic Quadrant for Full Life Cycle API Management for Red Hat 3scale API Management Platform.

Gartner's Magic Quadrants are based on rigorous analysis of a vendor's completeness of vision and ability to execute. According to Gartner, "Full life cycle API management is the functionality organizations need in order to provide the technology platform for digital business, run successful API programs and thrive in the API economy."

Red Hat 3scale API Management Platform is a distributed, cloud-based platform designed to provide end-to-end management capabilities for an organization's APIs. Based on API management technology developed by 3scale, [acquired by Red Hat in June 2016](#), the Red Hat 3scale API Management Platform complements Red Hat's existing application development technologies, including its Red Hat JBoss Middleware portfolio, OpenShift Container Platform, and Red Hat Mobile offerings, and strengthens its ability to help simplify and accelerate customers' digital transformation initiatives.

## Supporting Quote

*Steven Willmott, senior director and head of API Infrastructure, Red Hat*

"As building blocks of the digital economy, APIs continue to play an increasingly strategic role for organizations pursuing digital transformation initiatives. We're pleased to be enabling that API future for our customers by delivering visibility and control they can use."

## Forward-Looking Statements

Certain statements contained in this press release may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any historical or current fact. Actual results may differ materially

from those indicated by such forward-looking statements as a result of various important factors, including: risks related to the ability of the Company to compete effectively; the ability to deliver and stimulate demand for new products and technological innovations on a timely basis; delays or reductions in information technology spending; the integration of acquisitions and the ability to market successfully acquired technologies and products; fluctuations in exchange rates; the effects of industry consolidation; uncertainty and adverse results in litigation and related settlements; the inability to adequately protect Company intellectual property and the potential for infringement or breach of license claims of or relating to third party intellectual property; risks related to data and information security vulnerabilities; the ability to meet financial and operational challenges encountered in our international operations; ineffective management of, and control over, the Company's growth and international operations; and changes in and a dependence on key personnel, as well as other factors contained in our most recent Quarterly Report on Form 10-Q (copies of which may be accessed through the Securities and Exchange Commission's website at <http://www.sec.gov>), including those found therein under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations". In addition to these factors, actual future performance, outcomes, and results may differ materially because of more general factors including (without limitation) general industry and market conditions and growth rates, economic and political conditions, governmental and public policy changes and the impact of natural disasters such as earthquakes and floods. The forward-looking statements included in this press release represent the Company's views as of the date of this press release and these views could change. However, while the Company may elect to update these forward-looking statements at some point in the future, the Company specifically disclaims any obligation to do so. These forward-looking statements should not be relied upon as representing the Company's views as of any date subsequent to the date of this press release.
