

Red Hat Announces Dates for Red Hat Summit 2016 in San Francisco

JUN 26, 2015

BOSTON--(BUSINESS WIRE)-- RED HAT SUMMIT - Red Hat, Inc. (NYSE: RHT), the world's leading provider of open source solutions, today announced that the 12th annual Red Hat Summit will take place at the Moscone Center in San Francisco from June 28 - July 1, 2016. Red Hat Summit is the premier open source technology event, bringing together thousands of customers, partners, and open source industry leaders from around the world for a high-energy week of innovation, education, and collaboration.

During Red Hat Summit, Red Hat and technology industry visionaries unveil their views on the future of enterprise technology and explore how open source software is transforming everything from cloud and Linux containers to mobile, big data, the Internet of Things, and more. Business and technical sessions at Red Hat Summit provide attendees with an opportunity to receive hands-on training; dive into the latest product innovations; hear best practices from experts across industries, including Red Hat customers and partners; and network and collaborate with their peers.

The call for papers for Red Hat Summit 2016 will open later this year, with registration opening in early 2016.

Forward-Looking Statements

Certain statements contained in this press release may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any historical or current fact. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including: risks related to the ability of the Company to compete effectively; the ability to deliver and stimulate demand for new products and technological innovations on a timely basis; delays or reductions in information technology spending; the effects of industry consolidation; the integration of acquisitions and the ability to market successfully acquired technologies and products; uncertainty and adverse results in litigation and related settlements; the inability to adequately protect Company intellectual property and the potential for infringement or breach of license claims of or relating to third party intellectual property; risks related to data and information security vulnerabilities; ineffective management of, and control over, the Company's growth and international operations; fluctuations in exchange rates; and changes in and a dependence on key personnel, as well as other factors contained in our most recent Annual Report on Form 10-K (copies of which may be accessed through the Securities and Exchange Commission's website at <http://www.sec.gov/>), including those found therein under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations". In addition to these factors, actual future performance, outcomes, and results may differ materially because of more general factors including (without limitation) general industry and market conditions and growth rates, economic and political conditions, governmental and public policy changes and the impact of natural disasters such as earthquakes and floods. The forward-looking statements included in this press release represent the Company's views as of the date of this press release and these views could change. However, while the Company may elect to update these forward-looking statements at some point in the future, the Company specifically disclaims any obligation to do so. These forward-looking statements should not be relied upon as representing the Company's views as of any date subsequent to

the date of this press release.
