About Red Hat, Inc.

Red Hat is the world's leading provider of open source software solutions, using a community-powered approach to reliable and high-performing cloud, Linux, middleware, storage and virtualization technologies. Red Hat also offers award-winning support, training, and consulting services. As the connective hub in a global network of enterprises, partners, and open source communities, Red Hat helps create relevant, innovative technologies that liberate resources for growth and prepare customers for the future of IT. Learn more at <http://www.redhat.com>.

With thousands of attendees and 150+ business and technical sessions, Red Hat Summit is focused on generating developer, partner and customer success with Red Hat solutions across cloud, virtualization, platform, storage, middleware and systems management. Red Hat Summit 2014 offers opportunities for attendees to gain skills to get the most from their current deployments, explore new offerings and learn about emerging technology innovations and trends. Attendees will have the opportunity to meet with Red Hat product teams, hear from expert users at leading customer and partner companies, get hands-on training and learn best practices and strategies for innovation and success.
