

Red Hat Expands Access to Training with Red Hat Learning Subscription

JUN 22, 2015

Subscription enables customers to learn how to implement solutions using multiple Red Hat products online and on-demand

BOSTON--(BUSINESS WIRE)-- RED HAT SUMMIT--Red Hat, Inc. (NYSE: RHT), the world's leading provider of open source solutions, today introduced the Red Hat Learning Subscription, an annual subscription featuring unlimited access to Red Hat's full portfolio of training content. Delivered through a combination of online courses, videos, and hands-on labs, the Red Hat Learning Subscription is designed to help customers accelerate the speed and ease of on-boarding new staff, the adoption of new releases, and cross-training across multiple products.

Red Hat Learning Subscription provides named users with access to learning options that focus on platform, cloud, virtualization, middleware, and storage solutions. More than 400 videos are included within the tracks, and customers can access content, practice environments, and training materials on-demand. In addition, all content is indexed and searchable and can be used for on-the-job learning and performance support. This gives students freedom and flexibility to map out their own learning paths and to consume content when they need it. Subscribers gain immediate access to all new courses and seminars published by Red Hat.

Red Hat is providing a 50 percent discount for the Red Hat Learning Subscription as an exclusive benefit to current Red Hat Certified Architects.

Red Hat Training has been delivering training on open source technologies for 16 years. Customers choose Red Hat Training for its long history of delivering high-quality training experiences, its global scale and availability, and the depth and accuracy of its curriculum and certification programs.

Supporting Quotes

Ken Goetz, vice president, Worldwide Training, Red Hat

"The growth of open source, cloud, and 'as-a-service' offerings has opened the doorway for the type of in-depth, on-demand training that the Red Hat Learning Subscription offers. The subscription provides customers a way to learn about many Red Hat products, including our emerging technologies, and how they function together. This knowledge will help customers get the best possible value out of the Red Hat products they use, and gain insight into how other products can help their businesses."

Forward-Looking Statements

Certain statements contained in this press release may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any historical or current fact. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including: risks related to the ability of the Company to compete effectively; the ability to deliver and stimulate demand for new products and technological innovations on a timely basis; delays or reductions in information technology spending; the effects of industry consolidation; the integration of acquisitions and the ability to market successfully acquired technologies and products; uncertainty and adverse results in litigation and related settlements; the inability to adequately protect Company intellectual property and the potential for infringement or breach of license claims of or relating to third party intellectual property; risks related to data and information security vulnerabilities; ineffective management of, and control over, the Company's growth and international operations; fluctuations in exchange rates; and changes in and a dependence on key personnel, as well as other factors contained in our most recent Annual Report on Form 10-K (copies of which may be accessed through the Securities and Exchange Commission's website at <http://www.sec.gov>), including those found therein under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations". In addition to these factors, actual future performance, outcomes, and results may differ materially because of more general factors including (without limitation) general industry and market conditions and growth rates, economic and political conditions, governmental and public policy changes and the impact of natural disasters such as earthquakes and floods. The forward-looking statements included in this press release represent the Company's views as of the date of this press release and these views could change. However, while the Company may elect to update these forward-looking statements at some point in the future, the Company specifically disclaims any obligation to do so. These forward-looking statements should not be relied upon as representing the Company's views as of any date subsequent to the date of this press release.
