

# Red Hat Announces Dates for Red Hat Summit 2014 in San Francisco

JUN 14, 2013

*Tenth annual conference heads to the Moscone Center April 14-17, 2014*

RALEIGH, N.C.--(BUSINESS WIRE)-- Red Hat, Inc. (NYSE: RHT), the world's leading provider of open source solutions, today announced that its tenth annual Red Hat Summit will take place at the Moscone Center, North and South, in San Francisco from April 14-17, 2014. Red Hat Summit brings together thought leaders and executives from across the technology industry to participate in keynotes and sessions on community, innovation, collaboration and customer success.

With thousands of attendees and 150+ business and technical sessions, Red Hat Summit is focused on generating developer, partner and customer success with Red Hat solutions across cloud, virtualization, platform, storage, middleware and systems management. Red Hat Summit 2014 offers opportunities for attendees to gain skills to get the most from their current deployments, explore new offerings and learn about emerging technology innovations and trends. Attendees will have the opportunity to meet with Red Hat product teams, hear from expert users at leading customer and partner companies, get hands-on training and learn best practices and strategies for innovation and success.

The call for papers for Red Hat Summit 2014 will open later this year, with registration opening in early 2014.

## Forward-Looking Statements

Certain statements contained in this press release may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any historical or current fact. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including: risks related to delays or reductions in information technology spending; the effects of industry consolidation; the ability of the Company to compete effectively; the integration of acquisitions and the ability to market successfully acquired technologies and products; uncertainty and adverse results in litigation and related settlements; the inability to adequately protect Company intellectual property and the potential for infringement or breach of license claims of or relating to third party intellectual property; the ability to deliver and stimulate demand for new products and technological innovations on a timely basis; risks related to data and information security vulnerabilities; ineffective management of, and control over, the Company's growth and international operations; fluctuations in exchange rates; and changes in and a dependence on key personnel, as well as other factors contained in our most recent Annual Report on Form 10-K (copies of which may be accessed through the Securities and Exchange Commission's website at <http://www.sec.gov>), including those found therein under the

captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations". In addition to these factors, actual future performance, outcomes, and results may differ materially because of more general factors including (without limitation) general industry and market conditions and growth rates, economic and political conditions, governmental and public policy changes and the impact of natural disasters such as earthquakes and floods. The forward-looking statements included in this press release represent the Company's views as of the date of this press release and these views could change. However, while the Company may elect to update these forward-looking statements at some point in the future, the Company specifically disclaims any obligation to do so. These forward-looking statements should not be relied upon as representing the Company's views as of any date subsequent to the date of this press release.
